PREMIER INDUSTRIAL CONTROLS

Product Information Sheet

C810-0625 TIG Welding Foot Controls (for Miller® Maxstar 150 STL and STH)

The C800 TIG welding remote foot controls are industrial workhorses with high-performance characteristics. The C810-0625 is designed for use with the Miller® Maxstar 150 STL and STH TIG welding machines. Designed for the pro, these rugged and dependable controls provide a tremendous value. The patented design improves low-current welding while providing classic arc control.

The design features a durable 16-gauge steel case, an oversized top traction area, non-slip 3M® traction pads, comfortable at-rest and operating foot positions, heavy-duty cable, and precision components. Simply press the pedal to activate the gas contactor and increase current; release the pedal to turn off the weld output and activate the afterflow cycle. Includes a 25-foot cable and 6-pin plug.

- Patented design is tested to one million lifecycles.
- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- Replaces Miller® RFCS-6M (part number 195183 or 195504).
- 1-year warranty on parts and labor.
- Made in USA.

Dimensions, L x W x H, in. (cm.):
8.8 x 5.5 x 4.1 (22.4 x 14.0 x 10.2)

Weight, pounds (kg.): 5.8 (2.6)

Certification: CSA NRTL/C

Patent: 5,535,642

Finish: powder paint, black

Wiring Diagram – C810-0625

6-pin connector

Warning: Disconnect input power to the power source before installing or removing this control.
