PREMIER INDUSTRIAL CONTROLS

Product Information Sheet

C810-0814 TIG Welding Foot Controls (for Miller® Diversion 165)

The C810-0814 is designed for use with the Miller® Diversion 165 TIG welding machines. These rugged and dependable controls provide a tremendous value. The patented design improves low-current welding while providing classic arc control.

The design features a durable 16-gauge steel case, an oversized top traction area, non-slip traction pads, comfortable at-rest and operating positions, and precision components. Simply press the pedal to activate the gas contactor and increase current; release the pedal to turn off the weld output and activate the afterflow cycle. Includes a 25-foot cable and 8-pin RJ-45 plug.

- Patented design is tested to one million lifecycles.
- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- Replaces Miller® RFCS-RJ45 (part number 300432).
- 1-year warranty on parts and labor.
- Made in USA.

Dimensions, L x W x H, in. (cm.):
8.8 x 5.5 x 4.1 (22.4 x 14.0 x 10.2)

Weight, pounds (kg.): 4.8 (2.1)

Certification: CSA NRTL/C

US Patent: 5,535,642

Finish: powder paint, black
