Product Information Sheet

C860-0625 TIG Welding Foot Control

The C800 foot controls are dependable workhorses with high-performance characteristics. The C860-0625 is designed for use with Airco® TIG welding machines which use the FC-4 foot control. Designed for the pro, these rugged and dependable controls provide a tremendous value. The patented design improves low-current welding while providing classic arc control.

The design features a durable 16-gauge steel case, an oversized top traction area, non-slip 3M® traction pads, comfortable at-rest and operating foot positions, heavy-duty cable, and high-precision components. Simply press the pedal to activate the gas contactor and increase current; release the pedal to turn off the weld output and activate the afterflow cycle. Includes a 25-foot cable and 6-pin plug.

- Patented design is tested to one million lifecycles.
- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- Replaces Airco® model number FC-4 (stock number 1388-0043) with 6-pin connector.
- 1-year warranty on parts and labor.
- Made in USA.
