PREMIER INDUSTRIAL CONTROLS

## Product Information Sheet

### DG500 (G-Series Dual Foot Switch)

The DG500 connects any two G-Series foot switches onto a single base platform. The unit consists of a rugged steel base with bumper feet. The handle has an easy-grip ball knob that makes it easy to lift or move around the unit without having to bend down (note: handle can be removed if not needed).

#### Design features:

- Durable steel base with powder-painted finish.
- Secure, low-profile mounting ensures stability.
- Durable bumper feet that can be removed if the unit needs to be bolted to the floor.
- Can be equipped with any combination of G-Series foot switch.
- Also available with a single guard with no center divider.

#### Quality features:

- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- Includes a 1-year warranty on parts and labor.
- Made in USA of imported and domestic components.

Dimensions, L x W x H: 12" x 10" x 7" (25"H w/ handle)

Weight (DG500-MO): 20 pounds

Finish: Safety Orange

**Warning:** To avoid personal injury, do not use foot switches on machinery lacking effective point-of-operation safeguards.

Disconnect input power before installing or removing this control.

Model	Description	Price
DG500	The DG500 can be equipped with any combination of G-Series Foot Switch. For example, a unit with two G500-MO foot switches mounted on the platform is model number DG500-MO. A unit with one G500-MO on the left side (when viewed from front) and one G502-MA on the right side is model number DG500-MO/G502-MA.	\$35.00 + cost of each switch
"-OC" option	Same as above, but with no center divider between the two foot switches (picture on the right). Specify with "-OC" at the end of the part number.	\$35.00 + cost of each switch
