

THE SSC CONTROLS COMPANY

THE FOOT SWITCH EXPERTS

Product Information Sheet

E-Series Foot Switches

The E-series is a versatile foot switch that is ideal in environments ranging from office equipment to a music studio to the shop floor. Featuring a durable steel case with rounded corners, it provides an attractive look and quality in every detail. The large top traction area fits the whole foot, making it easy to use whether standing up or sitting down. The angle of operation blends smoothly with the user's foot and ankle, and the motion is cushioned by bumper pads.

Use these controls to turn electrical equipment on and off with the foot, freeing the hands to perform other operations or providing ergonomic improvement to a workstation. Typical applications include operating office equipment, music instruments, dental and medical equipment, and craft tools. Order one of our standard versions below, or contact us with special requests.

Design features:

- Large top traction area fits the user's whole foot.
- Wide base ensures stability.
- Tough, durable steel case.
- Comfortable angle of operation.
- Flexible strain relief protects cable from fatigue stress.
- Cover pivots on a steel shaft, providing smooth, consistent motion.
- Attractive finish features powder-painted steel case and non-slip 3M® traction pads.

Quality features:

- Designed and manufactured under a quality system certified to ISO 9001 requirements.
- Includes a 1-year warranty on parts and labor.
- Made in USA.

Dimensions, L x W x H: 8.8" x 5.5" x 4.1"

Weight: 5.6 pounds

IEC 60529 enclosure rating: IP-21

Travel: 0.28" (switch activates at midpoint)
